Jan 79 p 50, The ST-5 Plus
Jan 79 p 84, Digital RTTY is Simple
Feb 79 p 52, A Rock-Solid AFSK Oscillator
Apr 79 p 60, Simple RTTY IDer
Dec 79 p 152, Double-Duty Decoded Project
Jan 80 p 46, How to Write a RTTY Program

HAM RADIO

Apr 79 p 46, Active Bandpass Filter
Mar 77 p 22, AFSK Digital
May 77 p 94, Short Circuit AFSK
Jul 76 p 69, AFSK Generator
Sep 77 p 26, AFSK Generator and Demodulator
Jul 72 p 13, AFSK Generator,Crystal Controlled,K7BVT
Dec 73 p 14, AFSK Generator W6LLO
Dec 74 p 59, AFSK Sluggish Oscillator
Aug 75 p 56, Audio-Frequency Keyer
Sep 76 p 45, Audio Frequency Shift Keyer
Apr 76 p 43, Audio Frequency Simple Shift Keyer
Oct 73 p 10, Audio Shift Keyer,Continous-Phase
Mar 74 p 64, Continous Phase Short Circuit
Sep 71 p 50, Automatic frequency control for receiving RTTY
Jan 72 p 66 Added Note
Jun 73 p 6, Autostart Digital RTTY
Dec 72 p 37, Autostart Monitor Receiver
Jul 71 p 18, CRT Intensifier
Sep 74 p 71, Carriage Return,Adding to the Automatic Line-Feed Generator
May 78 p 86, Cleaning Teleprinters
Jun 74 p 30, Coherent Frequency-Shift Keying
Nov 74 p 58, Added Notes
Mar 73 p 46, Crystal Test Oscillator & Signal Generator
Jan 74 p 6, CW memory for RTTY ID
Nov 78 p 58, Digital Reperf/TD
Mar 76 p 24, DT-500 Demodulator
Oct 76 p 85, Short Circuit
Feb 76 p 8, DT-600 Demodulator
Sep 76 p 78, Added Notes
Oct 76 p 85, Short Circuit
Oct 78 p 74, Dual Demodulator TU
Oct 79 p 6, Comments
Sep 79 p 66, Duplex Audio-Frequency Generator With AFSK Features
Dec 71 p 36, Electronic Speed Conversion for RTTY Teleprinters
Oct 72 p 36, Printed Circuit for
Aug 78 p 56, Electronic Teleprinter Keyboard
Jun 70 p 53, Frequency Shift Meter
Nov 75 p 22, Line-end Indicator,IC
Jan 73 p 20, Line Feed,Automatic
Dec 72 p 46, Mainline ST-5 Autostart and Antispace
Sep 70 p 14, Mainline ST-5 Demodulator
Dec 70 p 72, Short Circuit
Jan 71 p 6, Mainline ST-6 Demodulator
Apr 71 p 72, Short Circuit
Jul 71 p 69, Mainline ST-6,More Uses For
Feb 71 p 50, Mainline ST-6, Troubleshooting
Jan 75 p 8, Message Generator,RAM
Feb 74 p 30, Message Generator
Sep 78 p 34, Modulator-Demodulator for VHF Operation
Aug 72 p 36, Monitor Scope,Phase Shift
Sep 74 p 70, Monitor Scope,Heath HO-10 & SB-610 as (HN)
Oct 71 p 33, Monitor Scope,Solid State
Dec 76 p 62, Performance and Signal-to-Noise Ratio of Low-Frequency Shift RTTY
Feb 79 p 26, Phase-Coherent Modulator
Mar 73 p 27, Phase-Locked Loop AFSK Generator
Jan 72 p 8, Phase-Locked Loop TU
May 72 p 60, Correction
Jul 74 p 60, Power Supply For
Sep 75 p 22, Optimization of Phase-Locked TU
Aug 76 p 16, Update
Oct 70 p 40, Precise Tuning With SSB Gear
Oct 72 p 54, Printed Circuit for Speed Converter
Oct 77 p 86, RAM Message Generator,Increasing Capacity
Feb 73 p 42, Receiver-Demodulator for Net Operation
Jun 72 p 30, Reinkers
May 69 p 40, Converter, Miniature IC
Aug 69 p 80, Short Circuit
Sep 72 p 36, Distortion,Causes and Cures
Aug 72 p 76, RTTY for the Blind
Jun 69 p 38, RTTY, Introduction to,K6JFP
Nov 73 p 62, Line-Length Indicator
Oct 71 p 64, RTTY Reception With Heath SB Receivers
Jun 78 p 10, Selcom
Aug 77 p 67, Serial Converter for 8-Level Teleprinters
Dec 77 p 68, Short Circuit
Mar 71 p 23, Signal Generator
Dec 71 p 96, Short Circuit
Apr 76 p 25, Simple Circuit Replaces Jack Patch Panel
Aug 74 p 50, Speed Control, Electronic
May 74 p 72, ST-5 Keys Polar Relay
Aug 69 p 67, Swan 350 and 400 Equipment
Dec 70 p 30, Synchophase AFSK Oscillator
Nov 70 p 38, Synchophase Reception
Jun 77 p 32, Tape Editor
Jul 70 p 38, Teleprinters, New Look In
Feb 75 p 36, TU,Phase-Locked Loop
Nov 73 p 16, TU,Variable Shift RTTY
Jan 78 p 64, Test Generator
Jan 73 p 67, Test Generator
Mar 73 p 59, Test Generator
Nov 76 p 30, Test-Message Generator
Jun 76 p 18, Time/Date Printout
Dec 77 p 68, Short Circuit
Jul 74 p 60, Voltage Supply,Precision for Phase-Locked Terminal Unit

Index of RTTY Articles in CQ Magazine

Through the courtesy of Dave Evans, WA6PVA who did the research we are including an index of RTTY articles that have appeared in CQ Magazine.

THIS LIST IS COMPLETE FROM JAN. 1960 TO MAY 1971 INCLUSIVE.

1960

Jul. 82 AFSK Station
Sept. 51 Automatic Keyboard Switching, K2DHE
Oct. 85 Central CE-458 VFO Circuit
Oct. 85 Diode Switching FSK Circuit
Aug. 71 Electrocom FSC-250 FSK Converter (Review)
Apr. 88 Fork Standard Oscillator
Oct. 84 FSK Discussion
Oct. 84 Heath DX-100 FSK Circuit
Jul. 82 Machine Theory
Feb. 75 Transistorized Electronic Keyer for Model 26
Aug. 92 Discussion of Page Printers
Nov. 110 Polar Relays
June 63 Remote Control 80 Meter VFO for RTTY, KØWMR
June 77 RTTY Station
Dec. 72 RTTY Station Control
Sept. 88 Tape Equipment

1961

June [illegible] Adjustment of the RTTY Polar Relay, WØVVF
Jan. 94 AFSK Oscillator
May 78 AFSK Oscillator for the Twin City TU
June 82 Autostart Discussion
June 82 Autostart for the Twin City TU
Sept. 102 Band-Pass Channel Filters
Apr. 88 Band-Pass Input Filter
Dec. 82 Baud Test Tapes
July 85 Clock Unit
[illegible] Converter Discussion
Aug. 102 Polar Relay Filter Circuit
Oct. 98 RTTY Test Equipment and Procedures
Apr. 34 RTTY with the KWM-2, K5VTO
Mar 90 Twin City TU
Apr. 89 Twin City TU (Modification)
Oct. 44 W5BGP Teletype Terminal Unit W5BGP

1962

Mar. 91 AFSK Oscillator, Transistorized
May 94 Correction
Aug. 96 AN/ART-13 on RTTY
May 80 AN/TGV-14 (v)
June 81 AN/URA Series Audio RTTY Converter Operation
Sept. 76 AN/URA Series IF Rtty Converter Operation
May 81 Dual Identification Petition
Jan. 69 Keyboard Arrangements
Nov. 84 Selector Magnet Driver, Transistorized
Dec. 69 Square Wave Dot Generator
May 94 Terminal Unit, Transistorized
Apr. 88 TU Power Supply, Transistorized
July 96 Tuning Eye for Twin City TU
Oct. 68 Tuning Fork Standard, Transistorized

1963

Feb. 32 Automatic RTTY and CW with Multi-Gates, WØASO
Oct. 66 Band-pass Input Filter of Narrow Shift
Mar. 68 Corrections
Nov. 72 Different Approach to RTTY Design, WØLZL
Aug. 66 Dual Identification Petition
June 68 Double-Tuned W2JAV Transistor TU
May 71 Heath Marauder on FSK
Nov. 104 K8DKC FSK-E Shift System
Dec. 66 Keyboard Operating Habits
Mar. 67 Selecting 2-Meter RTTY Frequency
Jan. 79 Tone Oscillator
Sept. 68 Transistorized TU for Narrow Shift

1964

Mar. 51 Add RTTY Tuning to the Modulator Analyzer
Dec. 51 Automatic Carriage Return for the Model 15, W8DTY & K8PSJ
July 78 Bias Distortion
Oct. 84 FCC Rules on RTTY Dual ID
Feb. 74 FRND Report-TD
Apr. 34 "Hi-Lo" FSK Keyer for the HT-30, 32, & 37, WØAJL
July 78 Keyboard Adjustment
Jan. 73 KWM-2A on RTTY
Mar. 76 Mercury Relay Characteristics
Jan. 36 RTTY Audio Oscillator
RTTY From A to Z, W5VU
Aug. 27 Part I, RTTY Basics
Sept. 45 Part II, Machine Types
Oct. 49 Part III, Machine Operation
Nov. 42 Part IV, Machine Circuitry
Dec. 34 Part V, Frequency Shift Keyers
Nov. 90 Transistorized AF Shift Keyers, W7QAG
Dec. 23 Transistorized Selector Magnet Driver

1965

July 88 AN/FGC-1 Terminal Unit, Aug., 90; Sept., 91; Oct., 92; Nov., 92.

May 50 Automatic Station ID with a Surplus Keyer, KØMHU
Mar. 87 Autostart Discussion - Jan., 89; Feb., 79.
Nov. 66 Close Look at Transistorized RTTY
Feb. 36 FSK For SSB Transmitters
Apri. 88 KWM-2 on RTTY
Apr. 44 Modifying the TH-5/TG Terminal Unit, W5AJG
RTTY From A to Z, W5VU
Jan. 24 Part VI, Receivers for RTTY, AFSK
Feb. 55 Part VII, The Converter
Mar. 31 Part VIII, The W2PAT and W2JAV Converters
Apr. 46 Part IX, Polar Relay Construction
May 63 Part X, Polar Relay Adjustment
June 39 Part XI, Modern Polar Relay Adjustments
July 43 Part XII, Distortion in Relays
Aug. 50 Part XIII, Eliminating Distortion
Sept. 65 Part, XIV, Unusual Circuits in RTTY
Oct. 49 Part XV, Schmitt Trigger Circuit
Nov. 37 Part XVI, Polar Relay Test Set
Dec. 37 Part XVII, Polar Relay Test Set Operation
Mar. 25 RTTY Tuning Indicator and Squelch

1966

Jan. 85 AN/FGC-1
Feb. 93 AN/FGC-1
July 97 Boehme Model 5C RTTY Converter
Nov. 74 Dual ID from your TD, WØLQV
Apr. 94 Essential Elements for the RTTY Station
May 90 0-5/FR RTTY Oscillator-Exciter
RTTY From A to Z, W5VU
Jan. 33 Part XVIII, Distortion Measuring Equipment
Feb. 36 Part XIX, TTY Machine Service & Maintenance
Mar. 42 Part XX, Additional Machine Maintenance
Apr. 67 Part XXI, Keyboard Adjustments
May 63 Part XXII, The Typing Unit
June 65 Part XXIII, The Selector Mechanism
July 51 Part XXIV, Miscellaneous Mechanical
Oct. 63 RTTY Linearity Improvements
Mar. 91 RTTY Operating Procedures
Mar. 28 RTTY Tape Take-up, W8QMI
Aug. 92 Surplus Teletype Converters
June 61 "Teletyping for the Disabled" K8SQB, W8QMI, W8AYY
Mar. 66 Totatype II: A Mobile 2 Meter RTTY Installation
June 92 Western Union "2B" Printer

1967

Jan. 88 Model 28 Teletype System, Feb., 92; May, 90.
Nov. 106 TDA RTTY Distortion Monitor Scope
June 95 Teletype Corp. Model 32KSR
June 94 Western Electric 314-A Polar Relay

1968

Apr. 104 AN/FCC-3 Terminal Unit
May 106 Converting the AN/FCC-3 Terminal Unit
Oct. 116 DEN-35 FSK RTTY Converter
July 63 FSK with Voltage Variable Capacitors, K1EUJ
May 18 RTTY Mainline Adaptor, W2LNP
Nov. 16 Transistorized RTTY Terminal Unit

1969

Mar. 90 AFSAV-133C FSK Demodulator
Sept. 82 AN/FGC-5 Receiving and Transmitting Code Converters
Feb. 51 Audio Limiter Circuit, WB4CVF
June 90 Frederick Electronics Morse to Baudot Converter
Dec. 59 FSK for the Transceiver, W9TKR
Nov. 88 Hellschreiber Teleprinter System Explanation
Jan. 90 Model 35 Equipment
May 47 Re-Inking RTTY Ribbons, W2IDX
Aug. 90 TT-30/AGA-1 Tape Teleprinter
May 90 Western Union Transistorized Date Interface Subassemblies

1970

Apr. 32 Good RTTY Control Layout, WØPHY
Apr. 82 Northern Radio Model 152 RTTY Terminal Unit
June 88 TDMS RTTY Test Set
Apr. 82 TT-40/SGC-1 RTTY Terminal Unit

1971

Mar. 112 Adapting Telemetry Discriminators to RTTY

AFTER 1971, NOT AVAILABLE FROM PUBLISHER
... -WBØQCD
